Dear Madam/Sir <<Last Name>>,

Now, more than ever, proper handwashing at school is essential.

As children and teachers head back to classrooms this fall, ensuring the early learning environments is safe is a top priority. To support care-free return, Time Timer introduces a revolutionary common-sense solution.

Time Timer WASH is a 30 second, touchless handwashing timer that is geared to support hygiene through sufficient time spent handwashing AND is a resource that will facilitate handwashing independence for pre-school and Kindergarten age children. This visual handwashing timer follows the WHO recommendations for washing time and breaks the process into three easy-to-see steps: **soap, scrub, rinse**.

All ages and abilities can use this easy-to-understand resource to ensure their hands are germ-free. No touching needed, quick and easy classroom management, and a safer environment for all.

“Because young children do not yet have a good sense of the passage of time, it will be important for adults to ensure that the handwashing process is done correctly and can be navigated successfully. The **Time Timer WASH®** is a product that can easily help to ensure that a young child goes through the appropriate process for effective handwashing, without needing an adult to monitor the amount of time they scrub.” - Eva C. Phillips, Ed.D.
