**TOGETHER**  
*We are*  
**STRONGER**

Dear <<First Name>>>,

At this uncertain time, with the Coronavirus, we like to update our relations on what is going on at our side.

At this moment our factories are manufacturing at approximately 75% of their capacity and it is increasing daily. While the situation remains very fluid, we expect a minimal production delay for our product lines. Here in the Netherlands we do have stock available for the highest selling models and we will be monitoring our inventory levels closely.

With all the necessary precautions and until further notice, our office as well as our warehouse are still open.

If there is any impact to our ability to fulfil orders, such as longer lead times, we will inform you as soon as that impact is known.

We are also taking extra precautions around cleaning/sanitization and we make sure that anyone who is sick does not come into the office.

This situation impacts everyone in the world. As our partner you are very important to us and here at Robo Educational Toys, we hope for all of our customers and their teams that they will be able to take care of themselves and their communities as much as possible. We wish the best for your business and hope that any impacts will be minimal and/or are of relatively short duration.

We are all in this together and we want to do whatever we can to help you

make it through.

Together with you we can weather this storm.

With our kindest regards,

Anette van den Bogaard for the whole Robo Educational Toys team
