Dear Madam/Sir <<Last Name>>,

Make Every Moment Count.®

Let's face it, it's not just the students in school that struggle to follow WHO guidelines. It takes a village to keep everyone safe, including teachers and office staff.

The [Time Timer WASH](#) is typically used by children, but we are not kidding when we say it is all ages and abilities. A germ-free office and school is a healthy office and school, and the [Time Timer WASH](#) is a way to keep your school office healthy.

[WASH](#) provides a touchless, step-by-step instructional hand washing experience that is in line with the [WHO's recommended hand washing techniques](#). Three simple steps, timed just right: A 5-second soaping, a 20-second scrubbing, and a 5-second rinsing to top it all off.

The [WASH](#) provides a visual, and optional auditory, experience that makes it easy for the hand washer to keep track of their progress. The only focus for your staff is to follow the instructions and keep the everyone safe. No matter who is in your office, we can guarantee that they will understand the [Time Timer WASH](#).

Think your staff could use some extra help at the sink? The [WASH](#) can sit on a sink, be stuck via suction cup to a mirror, or be hung on the wall. Whatever your preference, be sure to click the link below for more info:

Learn More About the Time Timer WASH

Apply for a free sample of the Time Timer WASH now that you're back in the classroom:

Want to see how it works first-hand? We are offering a limited number of early childhood administrators across the nation free samples of the Time Timer WASH. There is no obligation or commitment.
